A Real Teacher

The 5th of October

- Teaching in the modern world, most likely charity. His main goal is to be demanded. Business teacher - scientists and society - to give him a decent livelihood. Teachers often see a good, strong school discipline. But is he a great teacher? The school system is the ideal teacher - joins teaching staff; non-conflicting; in good faith, fills out all the paperwork; participates in required meetings; pass all courses, and other activities of the parent bodies; the children are happy to go on his lesson; his students are some standouts that bring good results in Olympiads. Teacher it sounds good!
- This is the most difficult and worthy work. Love your teachers because they give a piece of yourself.
