

Bondareva Viktoriya Andreevna
School № 36 From 11A

The teaching profession at all times remain the most honorable, but at the same time the most difficult. The ability to pass on their experience to young, just entering into an independent life for people - it's a talent

Probably every teacher wants it to his ~~the~~ disciple in the future succeeded. And, of course, every teacher is nice when it does so. But the main joy for a teacher is to thank the students

We must always remember our teacher who spare no time and effort, patiently and persistently formed us. It's

unfortunate that in our country the teacher's work is evaluated not on the merits in the social and material terms. In my opinion the state should care more about the people who are bringing the country's future. I do not have a favorite teacher. I believe that all teachers - favorite Teachers with honor dignity and pride of doing their duty. And we have them for this very grateful. We will never forget their teachers reveal to us the way into adulthood!

Finally I want to say a big thank you
dear teachers for their ~~hard~~ hard
work, reserved, wisdom and justice.
To teachers the word is given not in
order to lull his thought and to wake
the others. And all the pride of a teacher
in the students in the growth of seeds
sown them!
