

In my view the ideal teacher should be not only educated, but also understanding and friendly. Uchitel must understand the nature of the student to pick up to everyone, if need be, an approach. Same should see what state of mind of the student.

And if the teacher is the class teacher, you must know what is happening in the life of the class and help in some children, if they have problems.

~ If teachers will spend more time not only to prepare children for adult life, but also help to prevent and, if that happened, complexes growing. After all not enough teens to kill herself because of the fact that they do not understand, and sometimes not they want to understand other people.

In the case when the above will be combined in the same person I am confident I can, in my opinion, to say that this is the perfect teacher.
