A Real Teacher...

A Real Teacher a person of his trade and understanding person, has to help in difficult minute of life and not to put themselves above student and to be his friend.

My Real Teacher have got:

1. clever

2. wise

3. Responsible

4. cheerful

5. Strict, but on the ^{same} time understanding and forgiving

6. Experienced and competent.

I believe in one teacher all these qualities must be contained in order to give the student their knowledge and to be a role model.

Some students believe that the teacher should be loyal, and I do not agree with this statement, because if the teacher will treat the efforts and the knowledge the student is irresponsible then they will not feel responsibility and stop trying.

In the end I understood, what profession teacher very responsible, important and temant a lot of experience. I respect all the

teacher for their work.
